# National Interagency Coordination Center <br> Incident Management Situation Report <br> Wednesday, November 16, 2016 - 0800 MT National Preparedness Level 1 

## National Fire Activity

Initial attack activity:
New large incidents:
Large fires contained:
Uncontained large fires:**
Light (88 new fires)
$-\quad 35$
Area Command Teams Committed: 0
NIMOs committed: 0
Type 1 IMTs committed: 2
Type 2 IMTs committed: 4
**Uncontained large fires include only fires being managed under a full suppression strategy.
Link to Geographic Area daily reports.

## Southern Area (PL 5)

| New fires: | 82 |
| :--- | :---: |
| New large incidents: | 6 |
| Uncontained large fires: | 31 |
| Type 1 IMTs committed: | 2 |
| Type 2 IMTs committed: | 4 |

Party Rock, North Carolina Forest Service. IMT 2 (Brandon). One mile north of Lake Lure, NC. Hardwood litter. Active fire behavior with running, uphill runs and single tree torching. Numerous structures threatened. Evacuations, road, area and trail closures in effect.

Tellico, National Forests in North Carolina. IMT 1 (Dueitt). IMT is also managing the Boteler, Dick's Creek, and Muskrat fires. Three miles south of Almond, NC. Hardwood litter, timber and short grass. Moderate fire behavior with creeping and smoldering. Numerous structures threatened. Road and trail closures in effect.

Boteler, National Forests in North Carolina. Nine miles east of Hayesville, NC. Timber and brush. Minimal fire behavior with smoldering, flanking and backing. Numerous structures threatened. Road, area and trail closures in effect.

Dick's Creek, National Forests in North Carolina. Two miles northwest of Sylva, NC. Hardwood litter, short grass and timber. Minimal fire behavior with smoldering. Structures threatened.

Muskrat, North Carolina Forest Service. Eight miles southwest of Franklin, NC. Hardwood litter and timber. Minimal fire behavior with smoldering. Structures threatened.

Rock Mountain, Chattahoochee-Oconee NF. IMT 1 (Livingston). Two miles south of Tate City, GA. Hardwood litter and timber. Active fire behavior with running, flanking and backing. Structures threatened. Road and trail closures in effect.

Pinnacle Mountain, South Carolina Forestry Commission. Three miles southeast of Rocky Bottom, SC. Hardwood Litter and Timber. Active fire behavior with backing, flanking and uphill runs. Numerous structures threatened. Area and trail closures in effect.

Maple Springs, National Forests in North Carolina. IMT 2 (Esperance). IMT is also managing the Old Roughy fire. Three miles northwest of Santeetlah Lake, NC. Hardwood litter, timber and brush. Active fire behavior with flanking, backing and uphill runs. Structures threatened. Road, area and trail closures in effect.

Old Roughy, National Forests in North Carolina. Five miles north of Pelham, TN. Hardwood litter, timber and brush. Minimal fire behavior with smoldering.

Tatum Gulf, Georgia Forestry Commission. Eleven miles west of LaFayette, GA. Hardwood litter. Active fire behavior with flanking, backing and isolated torching. Numerous structures threatened. Evacuations, road and area closures in effect.

Chestnut Knob, North Carolina Forest Service. IMT 2 (Kern). Three miles south of Enola, NC. Hardwood litter. Active fire behavior with uphill runs, flanking and spotting. Structures threatened. Evacuations, road, area and trail closures in effect.

Eastern Cherokee Complex, Eastern Cherokee Agency (2 fires). Four miles east of Cherokee, NC. Hardwood litter. Minimal fire behavior with creeping and smoldering. Structures threatened. Road and area closures in effect.

Rough Ridge, Chattahoochee-Oconee NF. IMT 2 (Bentley). Thirteen miles northwest of Blue Ridge, GA. Hardwood litter, timber and brush. Moderate fire behavior with uphill runs, backing and creeping. Structures threatened. Area and trail closures in effect.

Neddy Mountain Road, Tennessee DOF. Three miles northeast of Del Rio, TN. Hardwood litter. No new information.

Raven Rock, George Washington \& Jefferson NF. Started on private land one mile east of Jenkins, KY. Hardwood litter and timber. Minimal fire behavior with smoldering. Numerous structures threatened. Trail closures in effect.

Cloverlick, Kentucky DOF. Two miles south of Lynch, KY. Hardwood Litter. Active fire behavior.
Abner Br, Kentucky DOF. Two miles southwest of Big Laurel, KY. Timber and Hardwood Litter. Active fire behavior.

* Charles Branch Lane, Tennessee DOF. Started on private land five miles north of Oliver Springs, TN. Timber. Minimal fire behavior.

Timber Ridge, Chattahoochee-Oconee NF. Three miles southeast of Tiger, GA. Hardwood litter and timber. Active fire behavior with creeping and smoldering. Numerous structures threatened.

Half Way, National Forests in Alabama. Six miles east of Sylacauga, AL. Closed timber litter. Active fire behavior with flanking and backing. Structures threatened. Road and trail closures in effect.

Hwy 190, Kentucky DOF. Two miles southwest of Pineville, KY. Hardwood litter and timber. Active fire behavior.

Mowbray, Tennessee DOF. Started on private land three miles northwest of Soddy Daisy, TN. Dormant brush, hardwood slash and timber. Moderate fire behavior. Structures threatened.

* Cliff Topps, Tennessee DOF. Started on private land one mile south of Monteagle, TN. Timber and dormant brush, hardwood slash. Active fire behavior with flanking, running and backing. Structures threatened.

Bull Creek 2, Kentucky DOF. Three miles west of Woolum, KY. Hardwood litter and timber. Active fire behavior.

[^0]Clinch Valley, Virginia DOF. Two miles south of Hansonville, VA. Hardwood Litter. No new information.

* Stiles, Tennessee DOF. Started on private land six miles southeast of Madisonville, TN. Hardwood litter. Active fire behavior with uphill runs.

Pigeonroost, Kentucky DOF. Ten miles east of Manchester, KY. Hardwood litter and timber. Active fire behavior.

Harless Creek, Kentucky DOF. One mile east of Regina,KY. Hardwood litter and timber. Active fire behavior.
Grassy Knob, Kentucky DOF. Five miles northeast of Middlesboro, KY. Hardwood litter and timber. Active fire behavior.

* Slope Hollow 2, Kentucky DOF. Three miles south of Cumberland, KY. Hardwood litter and timber. Active fire behavior.
* Hollins Fork, Kentucky DOF. Three miles north of Thousandsticks, KY. Hardwood litter and timber. Active fire behavior.

West Chapparal, George Washington \& Jefferson NF. Three miles southwest of Tacoma, VA. Hardwood litter and brush. Minimal fire behavior with smoldering.

*** Changes in some agency YTD acres reflect more accurate mapping or reporting adjustments. ***
Additional wildfire information is available through the Geographic Areas at http://gacc.nifc.gov/
Predictive Services Discussion: Rain and showers will spread across the northwestern corner of the U.S. from central and Nevada northward. Light rain or showers will move into the Northeast. The rest of the country will remain dry. Temperatures will turn cold in much of the West as a cold front move toward the Rockies. Cool weather will remain along the northern Plains to New England. The southern half of the nation and the central Plains will remain very warm. Breezy conditions will continue through the Plains.

## Roadside Incident Response

Vehicles/Roads Category

Nationally, the number of injuries and fatalities among emergency responders who are responding to roadside incidents is increasing at an increasing rate. Although most wildland fires occur in remote areas, there are situations where wildland fire personnel are responding to fires along rural country roads, jeep roads, or major highways; the risk still exists for our firefighters. Below is a checklist of considerations that should be utilized when responding to fires and other incidents along roadsides:

- Considerations
- Firefighter and public safety will always be the number one priority.
- Utilize L.C.E.S. in all incident activities.
- Personal Protective Equipment will be used on all incidents.

## Upon Arrival at the Scene

Size up incident- see Incident Response Pocket Guide

- What has happened?
- What is happening?
- What will or could happen?
- Is this a HazMat situation?
- Risk Management Process-
- Decision Point, Go No Go. See the Incident Response Pocket Guide, page 1

## Tactical Considerations

- Anytime traffic flow is affected by the incident, contact the jurisdictional law enforcement agency for assistance.
- Conduct all operations as far from traffic lanes as possible to provide for crew and public safety.
- Park units on the same side of the roadway whenever possible to avoid traffic congestion.
- Personnel do not exit the fire apparatus until instructed to do so by the module leader.
- Exit the fire apparatus away from the roadway or where hazard exposure is minimized.
- Exit the fire apparatus with full personal protective equipment.
- Post a lookout to watch for and control oncoming traffic.
- Utilize forward and rear spotters when visibility is impaired or road conditions warrant.
- Utilize and place road flares or other traffic warning signs whenever possible
- If equipment needs to be removed from the traffic side of the apparatus, one person
will retrieve the equipment and a lookout will watch for oncoming traffic.
- Engine operators will operate pumps from the non-traffic side or from the cab of the apparatus when possible. Keep all hose, fire tools, and equipment out of traffic lanes when possible.
- During night operations utilize reflective clothing, vests and other safety equipment as necessary.
- All emergency responses on roadways will be concluded as quickly as possible to reduce personnel exposure.
- Cancel or demob unnecessary apparatus as soon as possible.
- ** Each agency emergency vehicle operator will follow their particular state laws and agency policies governing the operations of emergency vehicles.
